Examiner's signature, if required

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicants informed that there are few inadvertent typographical errors found in examiner's amendment mailed 3/25/04. Few terms(i.g. hydroxy, C=S, and "or" in lines 15, 17 and 20 respectively) in claim 1 were missing when the claim 1 is copied from original claim 1. Since the said terms in question were originally existed and the examination were performed based on the original claims including those missing terms, the validity of the patentability should not be in question and considered to be valid. The supplemental examiner's amendment will be issued to accommodate the changes correcting the errors .
